

## **Neurologic Music Therapy Clinical Practice Workshop- (8 hrs in person/4 hours preparatory modules)-**

This intensive 1-day workshop will provide an opportunity for Neurologic Music Therapists to review and practice all of the neurologic music therapy techniques under the supervision of the Academy teaching faculty. Live demonstrations, breakout clinical practice sessions, mock scenarios, and standardized assessment practice will be used to increase your knowledge and clinical competence in NMT.

In order to prepare participants for this workshop, 3-4 hours of preparatory review modules will be required prior to the workshop.

This session is open to all students and professionals who have completed the initial Training Institute for Neurologic Music Therapy through the Academy for Neurologic Music Therapy and will provide participants with 12 hours of continued professional development credit. The clinical practice workshop is also a great way to sharpen your clinical skills, exchange ideas with your peers, or prepare for your Fellowship!

Upon completion of this course, participants will:

- Be able to demonstrate an advanced knowledge about neurologic music therapy (NMT), including all of the taxonomy of techniques used in NMT;
- Demonstrate an increased knowledge of current research supporting NMT techniques;
- Demonstrate a working knowledge of the Transformational Design Model; a model to assist in treatment selection based on functional goals; and
- Identify and perform current clinical assessments that can be used by NMT's for treatment evaluation.
